Subject: Kampachi

Can I get a status on the Kampachi permit. I see in the weekly every week that compilation and responding to comments is ongoing, but I need to understand where we are and how much longer we have to go. Maybe a call with you, Kip, and myself just to review things. I'll be asked about this before long so I need to have a specific answer – actually surprised I haven't been asked recently. Thanks Craig!
